

Full-Stack IT, Reimagined

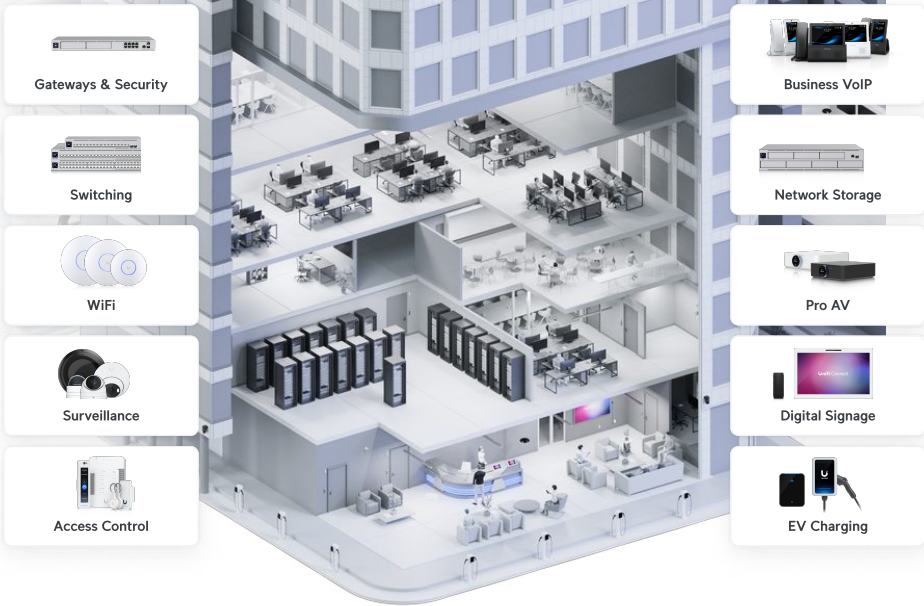

UniFi is a complete IT platform that unifies networking, cyber security, surveillance cameras, and door access control into a single, modern solution — all managed from one intuitive interface. Designed for scalability and efficiency, UniFi delivers advanced enterprise capabilities without the complexity or ongoing licensing costs of traditional systems.

Modern WiFi 7 Technology

Next-Gen Cyber Security

AI-Driven Video Camera

Modern Access Control

Escape The Enterprise Bloat Without Compromise

Slash Your CapEx and OpEx

- › Cost-Competitive Hardware
- › License-Free Business Model
- › Lower Training & Operational Overhead
- › Streamlined Procurement & Standardization
- › Proactive Monitoring & Alerts

Reduce Ownership Cost by 90% Over 5 Years

UniFi

All-in-One IT Platform
Networking, Security, SD-WAN, Surveillance,
Access Control, and more

✓ A Centralized
Solution For All IT

Centralized Management
Remote management for all sites
through Site Manager (unifi.ui.com)

✓ License-Free,
Infinitely Scalable

Next-Gen Firewall & Cybersecurity
SSL Inspection, Application Control, Content
Filtering, and Intrusion Prevention

✓ Next-Gen
Firewalling

Zero-Trust Networking and RBAC
Identity Integration (Entra/AD, Google
Workspace), MFA for VPN, WiFi, etc.

✓ Secure Employee
Onboard/Offboard

Mission-Critical High Availability
WAN Failover & Load Balancing, VRRP, MC-
LAG, Switch Stacking, Hot-Swap Fans & PSUs

✓ Eliminate Single
Points of Failure

Low-Latency,
On-Prem, License-Free

✓ **AI Video Surveillance**
Facial Recognition, License Plate Recognition,
Streamlined Incident Investigation

Convenient &
Intuitive Unlock

✓ **Flexible Door Access Control**
Apple Wallet Touch Pass, Face Unlock, NFC
Cards, Mobile App, PIN/QR Code, etc.

Compliance-Ready
Logging

✓ **Powerful Logging & Analytics**
Traffic Flows, Activity Logging, Network Health,
and SIEM-Integration for long-term retention.

Convenient &
Intuitive Unlock

✓ **APIs, Automations & Integrations**
Centralized API endpoints, Ansible playbooks,
and webhook-based automations.

Trustworthy &
Secure

✓ **Compliance & Data Privacy**
Full support for common compliance standards,
including PCI DSS, and HIPAA.
