

CAPABILITY STATEMENT

Freedom Technology Partners LLC

Freedom Tech: IT, cybersecurity, communications and physical security from one accountable team, supporting North Carolina, Virginia, Washington, DC and agencies nationwide.

CORE COMPETENCIES

- **Managed IT and help desk:** monitoring, patching, endpoint and server management, Tier 1–2 support and IT lifecycle management.
- **Cybersecurity and compliance:** CMMC and NIST SP 800–171 readiness, CJIS and HIPAA safeguards, endpoint detection and response, security awareness training.
- **Network and Security Operations Center:** 24/7 monitoring and alerting for networks, systems and security events.
- **Network infrastructure:** structured cabling and fiber, Wi-Fi, switching, firewalls and secure remote access.
- **Physical security:** IP video surveillance, access control, license plate recognition and video analytics.
- **Communications:** VoIP and unified communications, phone systems and eFax.
- **Cloud:** Microsoft 365 (including GCC High), Google Workspace, Azure and AWS.
- **Technology training:** end-user, security and IT training.

DIFFERENTIATORS

- One accountable team across IT, cybersecurity, communications and physical security, so fewer vendors and clear ownership.
- In-house help desk and NOC/SOC, not an outsourced call center.
- Our CEO and President & CTO are active North Carolina law-enforcement officers, bringing operational context to public-safety and security work.
- Documented, standards-based environments; the customer owns all documentation and credentials.
- On-site and remote delivery; listed in the SAM.gov Disaster Response Registry for all U.S. states.

RELEVANT EXPERIENCE

- **Multi-location communications:** phone system modernization and ongoing IT support for a six-location automotive group.
- **Professional services:** replaced a law firm's 15-year-old phone system with a modern VoIP platform.
- **Long-term managed IT:** multi-year management of computers, networks and specialized equipment for a recording studio.
- **Managed IT and security** for small and midsize organizations across North Carolina, including professional services, healthcare, construction and nonprofits.
