

ABOUT FREEDOM TECH

The Freedom Tech Advantage

One accountable technology partner for businesses, government, public safety and the organizations that serve them, since 2010.

In-house team

Our help desk and security operations center are our own people, not an outsourced call center.

A dedicated account manager

One person who knows your organization, your goals and your history, plus Quarterly Business Reviews.

Security built in

Layered protection and 24/7 monitoring are part of our plans, not expensive add-ons.

Published, predictable pricing

Our plans and prices are on our website. Build your plan and see your price before you ever talk to us.

You own your documentation

Every system documented, with passwords and access under your control. Never held hostage.

Plain English

No jargon, no talking down. Just clear answers and practical recommendations.

One partner for every layer

Managed IT and co-managed IT · Cybersecurity and compliance (CMMC, HIPAA, CJIS) · Microsoft 365 and Google Workspace · Cloud infrastructure · Network and Wi-Fi · Business phones · Hardware as a Service · Cameras and access control · Websites and digital marketing · Technology training

Who we serve

Businesses and professional services, government agencies, public safety, government contractors, healthcare, law firms, education, construction and manufacturing, across North Carolina and beyond. Registered in SAM.gov (UEI TEYIA2JVKDC3, CAGE 24C48).

See if we're the right fit. Book a 10-minute call, or build your plan at freedomtech.us/build-your-plan.
